#### Report on activities of the Board of Directors

Sigma Fund Real Return (SFRR) closes 2022 at -29.28%, Sigma Fund Prudent Growth (SFPG) at -36.57% YTD, and Sigma Fund Quality Stocks (SFQS) at -30.33% YTD, while the S&P 500 ends 2022 at -19.44% and the Nasdaq 100 at -32.97% YTD.

With a positive start of 2023, we began to recover some of the ground lost in 2022. As of 12th January, SFRR posts returns of +5.86%, SFPG reports +4.99% and SFQS +6.66%. Although there is still a month and a year to go in 2023, this data is a reminder that all crises must end and after the falls come the rises.

The last quarter of 2022 was positive for SFRR (+2.56%) and somewhat weaker in SFPG (-1.21%) and SFQS (-1.97%). Real Return was helped by the Tactical and Momentum strategies, which performed substantially better than markets in the second half of the year. In particular, Tactical —designed to capture returns on volatility futures and market beta—gained +11.42% in the first half of the year and closed a decent -4.69% for the year.

The high volatility in stock indices and our funds is the reflection of market uncertainty -installed in a sideways range since June 2022-, of the rebalancing towards bullish positions that we have been incorporating in the last quarter and of the more tactical management of hedging.

During the year we have optimised hedging strategies to combine mean reversion and short term index trends to better adapt to the most fragile and least liquid market of recent years. In December, we hedged +0.67% on S&P and +1.4% on Nasdaq (contributing +0.75% and +1.35% to SFRR and SFPG performance, respectively) despite the difficulty of operating in a market with sharp falls and rebounds.

In equity we have been retaking exposure to the Growth segments that we had reduced, and have recovered our position in China, which seems to be abandoning its zero-covid policies, after noting that the rest of the world has fared much better with less restrictive strategies.

The main factors dominating markets in 2022 were inflation and rising interest rates, as well as the growing threat of recession that was triggered by both. Inflation peaked in June in the USA and is clearly decelerating: prices are already falling in energy and vehicles, although it is still high in services and housing (which always lags somewhat due to the lower frequency at which rental contracts are updated).

In 2023 we expect inflation will continue to be under control, although it will be hard to reach the 2% target this year if economic activity remains at reasonable levels. The strength of the labour market is delaying and mitigating the effects of the most expected recession in recent years. When everyone is anticipating a certain event, the surprise comes when it does not actually happen, or if, when it does happen, its impact is lower than expected. With rising interest rates, we would expect a sharp slowdown in the real estate and auto sectors, with technology, health care and consumer staples performing relatively better. However, the wide dispersion of valuations in 2022 means that we need to reconsider risk taking into account their upside potential. For example, utilities and very defensive companies are trading at valuations that are too expensive to offer protection, while sectors such as retail, biotechnology, technology and IT services are trading in a sufficiently negative scenario to suggest that taking positions may be a good idea.

The more pessimistic expect markets to break 2022 lows in the first half of 2023. We prefer not to remain anchored in a fixed scenario but to react to data available to us in a pragmatic and balanced manner. Most managers take the 2001-2003 and 2008 crises as a reference, we find there is a more reasonable resemblance with the 1946 and 1969-70 crises. Both happened in cycles of high inflation, following events that had a great impact on US economy (World War II and the Vietnam War, respectively) that forced the Fed to adopt ultra-expansionary monetary policies. In the '46 crisis markets remained sideways for a long period of time but the S&P 500 bottomed at around -25%. Between '69 and '70 the maximum fall reached -37%, and it was not until the '73-74 crisis, when the US abandoned the gold standard and the subsequent economic turbulence, that falls comparable to 2001-2003 and 2008-2009 crises were recorded.

#### Report on activities of the Board of Directors (continued)

In 2022, the world has faced a serious inflation problem driven by monetary easing policy and post-covid consumer euphoria. Central banks' actions have been so far proportionate (if not tepid in the case of the ECB) and it may be inferred that they want to avoid an excessive intervention triggering a severe recession. Nevertheless, avoiding a severe recession is not an easy task and the possibility of it happening still exists; however, should there be a severe recession, it would be in the form of a V-shaped fall and recovery. Whether it is a mild recession -in which case we would not return to the lows of 2022- or a severe recession with a fall and a strong and brief rebound, it seems reasonable to accumulate positions in the sectors most hurt in 2022 and to face the year with optimism and caution given the attractive valuations we find in Growth, Asian Emerging Markets and US fixed income, whose stabilisation will contribute to normalising the performance of the rest of assets. For the time being, we would avoid the sectors that could suffer the most in the event of a recession, such as more cyclical sectors, energy and high yield. We keep the USD hedged in Real Return and Prudent Growth due to the extreme strength it has reached and the expected decline after the reduction in the rate differential between the US and Europe.

Amid market tensions, on 16th November 2022 the authorisation from the Luxembourg regulator to harmonise the funds under the European UCITS regulation –which provides a higher degree of protection, control, and transparency which will benefit shareholders— was received. With this authorisation, ratified at the shareholders' meeting held on 27th December 2022, the funds become UCITS, facilitating their marketing and future growth.

Luxembourg, 16th March 2023

The Board of Directors

To the Shareholders of SIGMA FUND 88, Grand-Rue L-1660 LUXEMBOURG

#### REPORT OF THE REVISEUR D'ENTREPRISES AGREE

#### Report on the audit of the financial statements

## **Opinion**

We have audited the financial statements of SIGMA FUND and each of its sub-funds ("the Fund"), which comprise the statement of net assets and the statement of investments and other net assets as at 31 December 2022 and the statement of operations and other changes in net assets for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of SIGMA FUND and each of its sub-funds as at 31 December 2022, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

#### Basis for opinion

We conducted our audit in accordance with the EU Regulation N° 537/2014, the Law of 23 July 2016 on the audit profession ("Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the Commission de Surveillance du Secteur Financier ("CSSF"). Our responsibilities under the EU Regulation N° 537/2014, the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the « Responsibilities of "réviseur d'entreprises agréé" for the Audit of the Financial Statements » section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of the audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

### Valuation of investments in securities at market value

Talaation of infooting in coountries	Tat market varae
a. Why the matter was considered to be one of most significance in our audit	b. How the matter was addressed in our audit
The investments in securities (including options) at market value represent between 67.6% and 98.65% of the total net assets (by value) as at 31 December 2022 depending on subfund, and are considered to be the key driver of the Fund's performance. The market values of the majority of the Fund's investments in securities are based on available market prices from an official stock exchange or another regulated market. Accordingly, the valuations of investments in securities are considered to be a key audit matter due to the significance of the balances to the financial statements as a whole.	<ul> <li>We have performed the following procedures:</li> <li>— Agreed holdings in the statemens of investments to independently received depositary confirmations;</li> <li>— Compared the valuation of securities at market value as at the year-end to valuations recalculated using mainly externally sourced prices.</li> </ul>

#### Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

#### Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

# Responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the "réviseur d'entreprises agréé" that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the EU Regulation N° 537/2014, the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the EU Regulation N° 537/2014, the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of
  expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.

- Conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our report unless law or regulation precludes public disclosure about the matter.

#### Report on other legal and regulatory requirements

We have been appointed as "réviseur d'entreprises agréé" by the General Meeting of the shareholders on 19 July 2022 and the duration of our uninterrupted engagement, including previous renewals and reappointments, is 27 years.

We confirm that the prohibited non-audit services referred to in the EU Regulation N° 537/2014 were not provided and that we remained independent of the Fund in conducting the audit.

Luxembourg, 27 April 2023

KPMG Audit S.à r.l. Cabinet de révision agréé

R. Beegun Partner

## Notes to the financial statements

as at 31st December 2022

#### Note 1 - General information

SIGMA FUND (hereafter the "Fund"), organised as a "Société Anonyme" under the laws of Luxembourg and qualified as a "Société d'Investissement à Capital Variable", was incorporated in Luxembourg on 19th April 1995. Until 26th December 2022, the Fund was registered under Part II of the amended law of 17th December 2010 (the "2010 law") relating to undertakings for collective investment. The Fund was qualified as an alternative investment fund ("AIF") in accordance with the law of 12th July 2013 (the "2013 law") on alternative investment fund managers (AIFM). The Fund was an "internally managed AIF" registered as Alternative Investment Fund Manager with the CSSF, as from 9th July 2014. Since 27th December 2022, the Fund is registered under Part I of the amended law of 17th December 2010 (the "2010 law") relating to undertakings for collective investment.

The Articles of Incorporation, the Prospectus, KIDs and the application form and the main agreements of the Fund may be inspected freely at the registered office of the Fund.

The latest semi-annual reports and annual reports including audited financial statements as well as the prices of subscription/redemption and conversion of Shares are available free of charge at the registered office of the Fund.

The Board of Directors of the Fund will not propose the distribution of a dividend at the Annual General Meeting.

#### Note 2 - Significant accounting and valuation policies

#### a) Presentation of the financial statements

The financial statements of the Fund are prepared in accordance with the Luxembourg legal and regulatory requirements concerning undertakings for collective investment and with generally accepted accounting principles in Luxembourg.

The financial statements of the Fund have been prepared on a going concern basis.

#### b) Valuations of assets

- The value of any cash on hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received are deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof shall be arrived at after making such a discount as the Board of Directors may consider appropriate in such a case to reflect the true value thereof.
- 2) The value of all securities and/or money market instruments which are listed or traded on an official stock exchange or traded on any other regulated market are valued on the basis of the last available closing prices on the Valuation Day or on the basis of the last available prices on the main market on which the investments of the Sub-Fund are principally traded. The Board of Directors will approve a provider of securities prices which will supply the above prices. If, in the opinion of the Board of Directors, such prices do not truly reflect the fair market value of the relevant securities, the value of such securities will be determined in good faith by the Board of Directors either by reference to any other publicly available source or by reference to such other sources as it deems in its discretion appropriate.
- Securities not listed or traded on a stock exchange or a regulated market are valued on the basis of the probable sales price determined prudently and in good faith by the Board of Directors.

#### Notes to the financial statements (continued)

as at 31st December 2022

4) The liquidating value of futures, forward or options contracts that are not traded on exchanges or on other organised markets are determined pursuant to the policies established by the Board of Directors, on a basis consistently applied for each different variety of contracts.

#### c) Acquisition cost of securities in the portfolio

The acquisition cost of the securities held by each Sub-Fund that are denominated in currencies other than the reference currency of the Sub-Fund is converted into this currency at the exchange rate prevailing on the date of purchase.

### d) Net realised gain/(loss) on securities portfolio

The realised gains and losses on securities portfolio are calculated on the basis of the average acquisition cost and are disclosed net in the statement of operations and other changes in net assets.

#### e) Investment portfolio income

Dividend income is recorded at the ex-date, net of any withholding tax.

#### f) Valuation of futures contracts

Open futures contracts are valued at the last settlement or close price on the stock exchanges or regulated markets. Net unrealised gains or losses of open contracts are disclosed in the statement of net assets. Net variation of unrealised gains or losses and net realised gains or losses are disclosed in the statement of operations and other changes in net assets.

#### g) Valuation of option contracts

Premiums paid on the purchase of options contracts are disclosed under the item "Option contracts at market value" in the statement of net assets and are presented as cost in the statement of investments and other net assets. Premiums received on issued options are disclosed under the item "Short option contracts at market value" in the statement of net assets and are presented as cost received in the statement of investments and other net assets. Open option contracts outstanding at the date of the financial statements are valued at the last settlement or closing price on the stock exchanges or regulated markets. Net variation of unrealised gains or losses and net realised gains or losses are disclosed in the statement of operations and other changes in net assets.

#### h) Conversion of foreign currencies

Cash at banks, bank overdrafts, other net assets, liabilities and the market value of the securities in portfolio expressed in currencies other than the reference currency of the Sub-Fund are converted into this currency at the exchange rate prevailing on the date of the financial statements. Income and expenses expressed in currencies other than the reference currency of the Sub-Fund are converted into this currency at the exchange rate prevailing on the date of the transaction.

#### i) Combined financial statements

The combined financial statements of the Fund are expressed in EUR and are equal to the sum of the corresponding items in the financial statements of each Sub-Fund.

### j) Other liquid assets / Other liquid liabilities

The item "Other liquid assets" disclosed in the statement of net assets is mainly composed of treasury accounts held by the Fund with the counterparties of the financial instruments and derivatives.

The item "Other liquid liabilities" disclosed in the statement of net assets is mainly composed of debt treasury accounts held by the Fund with the counterparties of the financial instruments and derivatives.

#### Notes to the financial statements (continued)

as at 31st December 2022

#### k) Transaction fees

Transaction costs disclosed under the item "Transaction fees" in the expenses of the statement of operations and other changes in net assets are mainly composed of broker fees incurred by the Fund and of fees relating to transactions paid to the depositary as well as of transaction fees on financial instruments and derivatives.

#### Note 3 - Management fees

Until 26th December 2022, the Board of Directors has appointed ALTEX ASSET MANAGEMENT S.G.I.I.C., S.A. to act as Investment Manager of the Fund. From 27th December 2022, as the Management Company has not delegated the investment management function of the Sub-Funds, it receives an investment management fee which is payable at the end of each month and calculated on the average total net assets of the Class of Shares during the relevant month at the following annual rates:

Sub-Fund	Class of Shares	Annual rate
SIGMA FUND - REAL RETURN	A EUR	1.10%
	B EUR	1.90%
	C EUR	0.00%
	I EUR	0.60%
SIGMA FUND - PRUDENT GROWTH	A EUR	1.75%
	I EUR	1.25%
SIGMA FUND - QUALITY STOCKS	A EUR	1.35%
	I EUR	0.90%

#### Note 4 - Performance fees

For SIGMA FUND - REAL RETURN, the Management Company may each year be entitled to the payment of an additional commission linked to the performance during each calendar year except to Class of Shares B EUR.

Such additional commission, calculated on the outstanding Shares of the relevant Sub-Fund, is fixed at 10% of the increase of the net asset value per Share of the relevant year end compared to the highest historical net asset value at year end of the previous 5 years.

At the date of the financial statements, no performance fee was recorded for the Sub-Fund SIGMA FUND - REAL RETURN.

No performance fee is forecasted for the Sub-Funds SIGMA FUND - QUALITY STOCKS and SIGMA FUND - PRUDENT GROWTH.

#### Note 5 - Central Administration costs

The item "Central administration costs" disclosed in the statement of operations and other changes in net assets is mainly composed of administrative agent fees.

### Note 6 - Depositary fees

The remuneration for depositary services are included in the item "Depositary fees" disclosed in the statement of operations and other changes in net assets.

#### Notes to the financial statements (continued)

as at 31st December 2022

### Note 7 - Subscription duty ("taxe d'abonnement")

The Fund is governed by Luxembourg law.

Pursuant to the legislation and regulations in force, the Fund is subject to an annual subscription duty "taxe d'abonnement" of 0.05% which is payable quarterly and calculated on the basis of the net assets of each Sub-Fund on the last day of each quarter. A reduced tax rate of 0.01% per annum is applicable for Share Classes reserved to institutional investors.

Pursuant to Article 175 (a) of the 2010 law the net assets invested in undertakings for collective investment already subject to the "taxe d'abonnement" are exempt from this tax.

#### Note 8 - Future contracts

As at 31st December 2022, the following Sub-Funds are committed in the following futures contracts:

#### **SIGMA FUND - REAL RETURN**

#### Notes to the financial statements (continued)

as at 31st December 2022

#### Note 10 - Statement of changes in investments

The statement of changes in investments for the period in reference to the report is available free of charge at the registered office of the Fund.

#### Note 11 - Events

The extraordinary general meeting held on 27th December 2022 decided to convert the Fund, initially incorporated and organised as an undertaking fo collective investment (UCI) under Part II of the 2010 Law, to an undertaking for collective investment in transferable securities (UCITS) under Part I Fund of the 2010 Law.

#### Ukraine/Russia conflict

On 24th February 2022 Vladimir Putin decided to invade Ukraine in an attempt to stop it from joining the NATO and to take control over the region. Ukraine had already initiated its request to join the NATO in 2008; it is a lengthy process, some stages of which still had to be completed, such as a referendum to validate its nomination. The war in Ukraine will seriously affect Russian economy and will also impact Europe, which can end up in a recession. Although the US also has important challenges to meet, such as controlling inflation, fuelled by the commodities price shock, it also has many more resources to keep its economy on course and will be much more resilient. The question is whether the US' strong growth coupled with the lower impact of commodity prices in its GDP compared to other periods will deflect the crisis, resulting only in a slower growth rate, or if the US will indeed slip into recession. Since the Fed's priority has traditionally been growth and employment, if growth is seriously compromised the Fed will most likely become more sensitive to the conflict, and adapt its monetary policy accordingly.

Since the invasion, we've underpinned our strategic pillars:

- 1) Greater concentration in the US, both in funds and in diversified portfolios
- 2) Decrease net equity exposure
- 3) Higher levels of cash in funds and portfolios and additional liquidity in managed portfolios depending on the investor's profile and positioning

To lessen the impact of the conflict, we've adopted a more defensive stance, which we will be gradually reversing as uncertainties are cleared. We have not attempted to take up a directional stance towards the war by buying oil, gold, and similar assets —although it may have been beneficial to do so-considering their high volatility and the losses such holdings can convey when conflicts are solved. Instead, we've increased index hedging which, even if it can also subtract from returns in a rebound, is more correlated to our equity holdings, that have an enormous revaluation potential at current levels and should be viewed as an opportunity to purchase rather than an opportunity to sell.

The silver lining of the invasion is that, going forward, it will reunite the western world – highly fragmented in bull markets— and could encourage China and the OPEC to increase globalization if they are able to keep calm and look out for their own economies while cooperating in the reconstruction of global economy. In the short term, it seems that China and India will take advantage of Russia's collapse buying its oil, gas and gold reserves at a discount. However, the gains they would bring in from a normalization of trade relations with the western world would be considerably higher.

#### Note 12 - Subsequent events

There are no subsequent events.

#### Additional information (unaudited)

as at 31st December 2022

#### 1 - Risk management

As required by Circular CSSF 11/512 as amended, the Board of Directors of the Fund needs to determine the global risk exposure of the Fund by applying either the commitment approach or the VaR ("Value at Risk") approach.

The level of leverage of the Sub-Funds, gained from the use of derivative strategies, is defined as the sum of absolute values of the derivatives notional (with neither netting nor hedging arrangement) divided by its NAV. Therefore, the Board of Directors of the Fund decided to adopt the VaR approach as a method of determining the global exposure for the following Sub-Funds:

- SIGMA FUND REAL RETURN
- SIGMA FUND PRUDENT GROWTH

Absolute VaR limit level is restricted to 20% and determined on the basis of a 99% confidence interval and a holding period of 1 month/ 20 day using MAC2 model simulation on Bloomberg.

For the SIGMA FUND - QUALITY STOCKS Sub-Fund, the Board of Directors of the Fund decided to adopt the commitment approach as a method of determining the global exposure.

#### 2 - Remuneration

The total amount of remuneration for the financial year paid by the Management Company to its staff, the number of beneficiaries, and where relevant, any amount paid directly by the UCITS itself, including any performance fee is as follows:

Fixed remuneration	Variable remuneration	Total remuneration
440,105.36	24,545.38	464,650.74

The number of beneficiaries is:

- Fixed remuneration: 16

- Variable remuneration: 6

The aggregate amount of remuneration broken down by categories of employees or other members of staff of the Management Company is as follows:

	Fixed remuneration	Variable remuneration	Total remuneration
Senior Management	173,649.92	3,891.98	177,541.90
Analysts	96,199.80	775.83	96,975.63
Risk	39,999.96	18,216.17	58,216.13
Back Office	37,649.99		37,649.99
Business Development	58,718.67	1,661.40	60,380.07
Administration	29,000.02		29,000.02
Maintenance	4.887.00		4.887.00
	440,105.36	24,545.38	464,650.74

Fixed remuneration is the core element of the Management Company's remuneration policy. It is used to reward staff on the basis of the tasks performed, professional experience and responsibility assumed. It constitutes a sufficiently high proportion of the total remuneration so that the variable element of the remuneration policy can be fully flexible.

#### Additional information (unaudited) (continued)

as at 31st December 2022

The variable remuneration is an exceptional bonus based on the employee's results and performance (contribution to the Management Company's results by the employee or to the objectives linked to his or her functions). In this way, it rewards the employee's involvement in the objectives and strategies of the Management Company and its group, the predisposition to perform the work entrusted properly, the degree of compliance with the procedures and rules that affect their activity and the alignment with the business philosophy of the Management Company and the group, and their interests in the short, medium and long term.

The Management Company has a Remuneration Committee which meets every six months. The minutes taken at such meetings are approved by the Board of Directors, and the remuneration policy is reviewed annually.

# 3 - Information concerning the transparency of securities financing transactions and of reuse of cash collateral (regulation EU 2015/2365, hereafter "SFTR")

During the reporting period, the Fund did not engage in transactions which are subject to the publication requirements of SFTR. Accordingly, no information concerning the transparency of securities financing transactions and of reuse of cash collateral should be reported.

#### 4 - Sustainability-related disclosures

In accordance with the requirements of the EU Regulations 2019/2088 and of the Council of 27th November 2019 on sustainability -related disclosures in the financial services sector (the "SFDR") as amended, all the active Sub-Funds are categorised under SFDR Article 6. The investments underlying these financial products do not take into account the EU criteria for environmentally sustainable economic activities.
