What is this product?

Type

This product is a share of an investment company qualifying as an undertaking for collective investment in transferable securities (UCITS).

Term

This sub-fund has no maturity date. However, the board of directors may decide to close the sub-fund under certain circumstances.

Objectives

The sub-fund aims to generate long term capital appreciation and preservation by investing in a concentrated portfolio of growth style equities, while seeking to contain volatility and risk with complementary currency and beta hedging strategies. However, there is no guarantee or representation that the objective of the sub-fund will be achieved.

While respecting the principle of risk diversification, the sub-fund's assets are invested mainly in equities, equity linked securities and derivatives without restrictions on economic sector or geographic origin with a flexible beta exposure: as market conditions change, the portfolio's exposure to equity, and consequently its beta exposure, will also vary.

Under normal market conditions, the sub-fund's baseline allocation is:

- between 75% and 100% in equities and equity linked securities.
- between 0% and 100% short equity indices via futures (for hedging purposes).
- between 0% and 100% in currencies other than Euro, that can remain unhedged or be totally or partially hedged, as part of the investment strategy.
- maximum 25% in cash, fixed income and money market instruments.

The sub-fund will also enter into various transactions involving derivative instruments for risk control, hedging, and investment purposes, using futures and options (exchange traded and OTC), and currency forwards.

Stock index futures allow the sub-fund to obtain net long or net short exposures to a selected reference index and its underlying securities without actually having to purchase or sell such underlying securities.

Currency and currency index futures and currency forwards allow the sub-fund to obtain net long or net negative (short) exposure to selected currencies.

The sub-fund will capitalise its entire earning following an income accumulation policy.

Benchmark: The portfolio is actively managed on a discretionary basis without reference to a benchmark.

Intended retail investor

This sub-fund is aimed at investors wishing to diversify their portfolio by investing in a product that provides capital appreciation regardless of how the financial markets evolve and to limit fluctuations in value. To achieve this, the sub-fund invests a substantial part of its assets in hedges with the purpose of limiting market volatility and risk.

Other information

Depositary: Quintet Private Bank (Europe) S.A.

Dividend income: This class is a capitalisation class meaning that income is reinvested.

Conversion right: The investor has the right to convert his investment in shares in one sub-fund for shares in the same sub-fund or in another sub-fund. The investor can obtain information about how to convert in the prospectus of the fund.

Segregation: The assets and liabilities of the sub-fund are segregated pursuant to the law so that the commitments and liabilities of the sub-fund do not affect the other sub-funds.

Additional information: Additional information about the fund, copies of its prospectus, the latest annual and semi-annual report and the latest prices of shares may be obtained free of charge from the management company or on <https://www.altex-am.com/en/>. The prospectus and the periodic reports are prepared for the entire fund and are available in English. The management company may inform you about other languages in which these documents are available.

This sub-fund was launched in 2018 and this share class in 2018.

The currency of the share class is expressed in EUR.

What are the risks and what could I get in return?

Risk indicator

This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you.

Be aware of currency risk. You may receive payments in a currency that differs from your reference currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The sub-fund is also exposed to the following materially relevant risks that are not included in the summary risk indicator:

- Market liquidity risk
- Operational risk
- Derivatives risk
- Currency risk
- Counterparty risk.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

Recommended holding period: 5 years

Example investment: 10,000 EUR

| | | If you exit after 1 year | If you exit after 5 years (recommended holding period) |
|---------------------|--|---------------------------------|---|
| Scenarios | | | |
| Minimum | There is no minimum guaranteed return. You could lose some or all of your investment. | | |
| Stress | What you might get back after costs | 2,050 EUR | 2,190 EUR |
| | Average return each year | -79.5 % | -26.2 % |
| Unfavourable | What you might get back after costs | 6,190 EUR | 7,550 EUR |
| | Average return each year | -38.2 % | -5.5 % |
| Moderate | What you might get back after costs | 10,140 EUR | 11,390 EUR |
| | Average return each year | 1.4 % | 2.6 % |
| Favourable | What you might get back after costs | 15,250 EUR | 17,130 EUR |
| | Average return each year | 52.5 % | 11.4 % |

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and of a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Unfavourable scenario: This type of scenario occurred for an investment be-

tween November 2021 and December 2023.

Moderate scenario: This type of scenario occurred for an investment between May 2017 and May 2022, by referring to a benchmark.

Favourable scenario: This type of scenario occurred for an investment between November 2016 and November 2021, by referring to a benchmark.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if ALTEX is unable to pay out?

If we are not able to pay you out what we owe you, you are not covered by any national compensation or guarantee scheme. To protect you, the assets are held with a separate company, the depositary Quintet Private Bank (Europe) S.A.. Should we default, the investments are liquidated and the proceeds are distributed to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding period we have assumed the product performs as shown in the moderate scenario
- 10,000 EUR is invested

| | If you exit after 1 year | If you exit after 5 years |
|------------------------|--------------------------|---------------------------|
| Total costs | 486 EUR | 1,694 EUR |
| Annual cost impact (*) | 4.9 % | 2.9 % each year |

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.5% before costs and 2.6% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

| | | If you exit after 1 year |
|--|---|--------------------------|
| One-off costs upon entry or exit | | |
| Entry costs | 2.5% of the amount you pay in when entering this investment. | 250 EUR |
| Exit costs | We do not charge an exit fee for this product. | 0 EUR |
| Ongoing costs taken each year | | |
| Management fees and other administrative or operating costs | 1.8% of the value of your investment per year. This is an estimate based on actual costs over the last year. | 176 EUR |
| Transaction costs | 0.6% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. | 60 EUR |
| Incidental costs taken under specific conditions | | |
| Performance fees | There is no performance fee for this product. | 0 EUR |

The conversion of part or all of the shares is free of charge.

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

You should be prepared to stay invested for 5 years. However, you can redeem your investment without penalty at any time during this time, or hold the investment longer. Redemptions are possible on each full bank business day in Luxembourg. In exceptional circumstances, your right to request the redemption of your investment may be limited or suspended.

How can I complain?
